Personal Statement

I am nearing the end of my studies in a Masters of IT Project Management, and have graduated with a Bachelor of Computer and Information Science, majoring in Software Development and a minor in Design Thinking. I am studying at Auckland University of Technology. I am highly motivated to develop my professional knowledge and skills in the industry. I want to expand my knowledge in Agile Methodologies. I enjoy working with diverse, multidisciplinary teams of people from different backgrounds. I thrive in creative environments where we can plan and brainstorm different approaches to creating applications and software.

Project Work

PlantATree

Sept 2018 - Nov 2018

An Android App for purchasing trees and garden tools simulating tree placement to help with landscaping design.

Duties

- Develop code using Java to create an Android application.
- Test the application for bugs and errors and fix them.
- Manage the code using GitHub.
- Using Scrum to track progress of the project.
- Design the layout of the application.

Checks Downtown

Sept 2018 - Nov 2018

Design a way to advertise the company using what they currently have, my team designed a custom QR code to link to Checks Downtown website.

Duties

- Develop a product that Checks would be happy to display in their store.
 - Brainstorm options for the advertising to be produced.
 - Research methods that can be used to improve the product.
 - Create the QR codes using QRCode Monkey.
-
